Quarterly Financial Report

Q4 2024 — Fiscal Year End

Prepared for: Board of Directors

Date: January 15, 2025

Company: Acme Technologies Inc.

1. Executive Summary

Acme Technologies achieved record revenue of \$58M in Q4 2024, representing a 48% year-over-year increase. Total annual revenue reached \$195M, exceeding our revised guidance of \$185M. This growth was driven by strong enterprise adoption of our AI-powered analytics platform, which now serves over 2,400 corporate clients across 35 countries.

Operating margin improved to 22.3% from 18.7% in the prior year, reflecting economies of scale in our cloud infrastructure and improved sales efficiency. Free cash flow generation was \$42M for the full year, enabling us to fund R&D investments while maintaining a healthy balance sheet.

2. Revenue Breakdown by Segment
